Robert Horner

Call: 1999

E	clerks@dekachambers.com
T	+44(0)20 7832 0500

Robert Horner practice encompasses high value personal injury and clinical negligence work.

He is ranked as a leading individual in the Legal 500.

Robert is co-editor of 'Clinical Negligence Claims: A Practical Guide' and a contributor to the APIL 'Guide to RTA liability'.

Outside of work Robert enjoys cross-country running, albeit he finds it takes him ever longer to cover ever shorter distances. He is kept amply occupied and amused by his three children.

Areas of Expertise

Personal Injury

Robert acts for Claimants and Defendants across the full range of personal injury work. His work is high value and much of it complex.

Robert's insightful and realistic approach is highly regarded by his professional and lay clients alike. His eye for detail and excellent client manner in an asset in any case in which he is instructed.

Robert's recent cases include:

- Brain Injury
- Orthopaedic Injury
- Psychiatric Injury
- Chronic Pain/Fibromyalgia/SSD
- Fatal Accident Claims

Notable Personal Injury cases

Y v Z (Brain Injury)

Recovered in excess of £6million for a young male who sustained a catastrophic brain injury leaving him in a minimally conscious state.

S v T (Brain Injury)

Recovered substantial compensation for a 46-year-old male who sustained multiple orthopaedic injuries together with traumatic brain injury leading to a loss of career and need for ongoing buddy support.

R v M (Orthopaedic Injury)

Recovered in excess of £2million for a young apprentice engineer who sustained catastrophic injuries in a motorcycle accident rendering him unable to pursue a promising career and facing a bleak future with limited use of an upper limb.

E v R (Orthopaedic Injury)

Recovered in excess of £2million for a former member of the armed services who suffered a below knee amputation.

L v S (Orthopaedic Injury)

Recovered significant damages on a provisional basis for a young cyclist who sustained lifechanging lower limb injuries with a significant future risk of substantial deterioration in her mobility.

X v Y (Psychiatric Injury)

Recovered significant compensation for a paranoid schizophrenic with learning difficulties who, as a result of a road traffic accident, sustained a permanent relapse in her condition giving rise to the need for 24-hour supervision where there were difficult issues of liability and causation.

A v B (Chronic Pain/Fibromyalgia/SSD)

Recovered significant compensation for a female who, following a road traffic accident, developed chronic symptoms of fibromyalgia where causation was very much in dispute.

Y v S (Chronic Pain/Fibromyalgia/SSD)

Recovered significant compensation for a female who, following a road traffic accident, developed Somatic Symptom Disorder to a disabling degree which curtailed her promising career as a teacher.

T v L (Chronic Pain/Fibromyalgia/SSD)

Recovered significant compensation for a female who, following a tripping injury, experienced chronic regional pain syndrome in her upper limb which restricted her ability to work or supporting her family.

P v Q (Fatal Accident Claims)

Recovered over £500k for a widow's claim for dependency where the deceased husband provided substantial daily care due to the widow's health condition.

C v D (Fatal Accident Claims)

Recovered significant compensation for a dependency claim on behalf of a widow and her children where there we issues in respect of liability, proof of cohabitation and relevant benefits income.

Clinical Negligence & Healthcare

Robert has experience of representing both claimants and defendants where clinical practice is in issue. He is very familiar with the workings of medical institutions and clinical practices.

Robert has extensive experience of cross-examining experts on highly technical points of medical procedure. His attention to detail is valued by those by whom he is instructed.

Notable Clinical Negligence & Healthcare cases

Advice & Consent

Failure to provide appropriate advice as to the range of treatment options.
Failure to advise as to relative risks and benefits of proposed surgical treatment.
Negligent recommendation of sub-optimal treatment.
Failure to obtain consent for the surgical treatment undertaken.

Investigation & Diagnosis

E: clerks@dekachambers.com
DX: LDE 439

Failure to undertake appropriate investigations leading to death.
Failure to act on the results of an ECG leading to death.
Failure to diagnose necrotising pneumonia in a toddler, leading to lobectomy.
Failure to diagnose sepsis, leading to death.
Failure to diagnose developing cauda equina, leading to lower limb sensory and mobility loss.

Treatment

Negligent performance of surgery leading to permanent restriction in sexual function.
Negligent assisted delivery leading to permanent disability in a newborn.

Inquests

Robert has extensive experience of inquests arising from death in a wide range of circumstances both within a personal injury and a clinical negligence setting.

Many of the inquests in which Robert has acted were complex and lengthy, involving a number of interested parties and witnesses. Robert is well used to acting in inquests that involve a potential for criminal prosecution for serious offences and/or a large shadow civil claim. He is well able to navigate his clients through the significant media attention many of these cases attract.

Robert's clear and persuasive style of advocacy enables him to represent his clients' best interests in a manner that is both effective and appropriate for the setting. His user-friendly approach has been particularly appreciated by the bereaved families for whom he has acted.

Notable Inquests cases

Advising and representing at inquest parents whose six-year old boy was drowned during a Scouting trip. This sensitive case involved consideration of appropriate supervision of groups, risk assessment and training of leaders, and detailed pathology evidence surrounding cause of death.

Advising on liability and appearing at inquest in respect of a fatal accident in the course of a motorcross event. The matter involved issues of course layout, bike handling and marshalling provision.

Advising and representing a family whose mother was killed in front of her young daughter whilst horse riding. The matter involved detailed expert evidence on mechanical issues involving the HGV involved as well as expert equine evidence on horse behaviour.
